

Reserve for Acquisition of Specific Assets

1. Name of reserve: Reserve for Acquisition of Robotic Biorepository
2. Asset to be acquired: Robotic biorepository
3. Justification: An -80°C automated biosample storage and retrieval system, which enables efficient introduction, retrieval and management of biosamples, will be introduced for the integrated management of such biosamples as blood, urine, pathological samples and teeth, collected from long-term follow-up studies of A-bomb survivors and their children.
4. Time of acquisition: September 2015
5. Holding period: The full amount will be deposited in the dedicated bank account in March 2015.
6. Schedule of use:

September 2015.....	194,840,000 yen
March 2016.....	100,000,000 yen
Total	294,840,000 yen
7. Minimal amount necessary for asset acquisition: 294,840,000 yen

[Note] Basis for determining the amount: An open competitive tender was conducted, and a tenderer who best satisfied our needs and specifications was awarded the contract after a comprehensive evaluation of both price and technical aspects. The amount of contract (294,840,000 yen) is used as the minimal amount necessary for asset acquisition.

8. Laws and regulations applied:
 - (1) Item 3, Paragraph 3, Article 22 of Enforcement Ordinance Pertaining to Law Concerning Authorization of Nonprofit Associations and Nonprofit Foundations
 - (2) RERF Regulations Governing Management of Reserves for Specific Expenses and Acquisition/Improvement of Specific Assets
