Date: December 14, 2012 (Friday), 11:40 - 12:00

Place C-211 (Hiroshima), The third-floor meeting room (Nagasaki) (teleconference)

<Epidemiological research review >

	Department	Research project title	Review results	Summary
1	Clinical Studies	RP Type-A - Serum TSH within the reference range and the risk of coronary heart disease Addendum to RPA10-08 (The association between subclinical thyroid dysfunction and cardiovascular disease and mortality: an individual participant pooled analysis of large international cohort studies)	Approved	◆With regard to the "Ethical considerations for RERF data" section of this RP, there was an inconsistency in wording between the Japanese and English versions. It is necessary to make appropriate corrections to the Japanese version. (The modification applies only to the Japanese text.)

*The above Research Protocol was approved after confirmation that the relevant modifications were made properly.
