

**The 194th meeting of Human Investigation Committee (Expedited review)**

Date: May 13, 2013(Monday), 13:00 - 13:45

Place C-211 (Hiroshima), The Fourth-floor meeting room (Nagasaki) (teleconference)

**<Epidemiological research review >**

	Department	Research project title	Review results	Summary
1	Epidemiology	A Proposal to Join The Pooled Analysis of Radiation-Related Primary Neoplasms of the Brain and Nervous System (Type-A RP)	Approved	<ul style="list-style-type: none"><li>◆The “Study Recruitment” section in the RP should be partially improved for clarity.</li><li>◆The “RERF Data” section should specify what data will be provided and how. The “Timeline” section should provide information on how the RERF data sent to the collaborating institute will be handled at the institute if the data are stored there.</li><li>◆The “Timeline” section should specify that the specific data set provided by RERF will be destroyed at the coordinating center at the end of the project, but data used in analysis that are pooled with data from other studies will be stored because the data have great academic value and the deletion of only the RERF data is impossible.</li></ul>

\*The above Research Protocol was approved after confirmation that the relevant modifications were made properly.
