

The 4th Institutional Review Board Meeting (FY2016) (expedited review)

Date: June 8, 2016 (Wednesday) 15:30 - 16:00

Place: C-211 (Hiroshima) and Clinical Studies Department's conference room on the 3rd floor (Nagasaki) [teleconference]

<Epidemiological research review >

	Department	Research project title	Review results	Summary
1	Epidemiology	Evaluation of DNA/RNA library with repair of fragmented DNA/RNA for suitability for whole genome sequencing of thyroid cancer (pre-test of “A pilot study of genomic characterization of radiation-associated papillary thyroid cancer among the atomic-bomb survivors”). [Pretest for a pilot RP] (Revision of RP)	Approved	◆ In this project, RERF, NCI and RIKEN plan to preserve and manage samples provided by Hiroshima Red Cross & Atomic-bomb Survivors Hospital. To this end, it is necessary to confirm relevant procedures and execute the procedures properly.

*With regard to the aforementioned issue, IRB confirmed that proper revision was made and gave approval.
