

The 219th meeting of Human Investigation Committee (Expedited review)

Date: February 24, 2016 (Wednesday), 13:15 - 14:10

Place: C-211 (Hiroshima), 4th fl. meeting room (Nagasaki) (teleconference)

< Epidemiological research review >

	Department	Research project title	Review results	Summary
1	Statistics	“A proposal to join the Pooled Project of Moderate Dose and Hemopoietic Malignancies”	Approved	<ul style="list-style-type: none"> ◆ The application for ethical review and RP should be revised in accordance with the following comments: <ol style="list-style-type: none"> 1. With regard to information to be provided outside RERF, you need to confirm with NCI and IMS means of disposal after the completion of the study, which are stipulated in official written agreements; and concretely describe means of confirmation of data disposal. 2. You need to reconfirm the status of participation in ethics training by those engaged in this study and prepare/submit a list of such individuals to the committee.
2	Clinical Studies	Evaluation of DNA/RNA library with repair of fragmented DNA/RNA for suitability for whole genome sequencing of thyroid cancer (pre-test of CR121: A pilot study of genomic characterization of radiation-associated papillary thyroid cancer among the atomic-bomb survivors)	Approved	<ul style="list-style-type: none"> ◆ The Application for Ethical Review and the RP will be revised to reflect the following clarifications to be made. <ol style="list-style-type: none"> 1. The official agreements that RERF will sign with the US NCI and RIKEN must be checked pertaining to the disposal of data provided to them, and specific methods of disposal established with the NCI and RIKEN, to ensure appropriate disposal of such data. 2. The status of participation in ethics training by the collaborating researcher at the Hiroshima Red Cross Hospital & Atomic-bomb Survivors Hospital, who will be in charge of carrying the tissue blocks between the hospital and the NCI for this project, must be confirmed.

*The above Research Protocol was approved after confirmation that the relevant modifications were made properly.
