

**The 2nd Institutional Review Board Meeting (FY2017) (expedited review)**

Date: May 29, 2017 (Monday) 13:30 - 15:00

Place: C-211 (Hiroshima) and 3rd fl. meeting room (Nagasaki) (teleconference)

**< Review concerning human subject research >**

	Department	Research project title	Review results	Summary
1	Statistics	RP18-59: Shielding survey and dosimetry study (Cullings et al.)	Approved	◆ The IRB concluded that it is difficult to provide an opt-out option to the participants.
2	Epidemiology	RP1-75: Research plan for RERF study of Life-span of A-bomb survivors, Hiroshima and Nagasaki RP2-61: Study of mortality in children exposed in utero: Research plan RP4-75: Research plan for RERF studies of the potential genetic effects of atomic radiation; Hiroshima and Nagasaki (Ozasa et al.)	Approved	◆ With regard to issues pointed out by IRB, the attachment should be revised in an appropriate manner. ◆ The IRB concluded that it is difficult to provide an opt-out option to the participants.

\*With regard to the aforementioned issues, IRB confirmed that proper revisions were made and gave approval.

**< Review concerning human genome/gene analysis research protocol >**

	Department	Research project title	Review results	Summary
1	Epidemiology	RP-P1-16: A pilot study of genomic characterization of radiation-associated papillary thyroid cancer among the atomic-bomb survivors (Ozasa et al.)	Approved	◆ With regard to issues pointed out by IRB, the attachment should be revised in an appropriate manner. ◆ The IRB concluded that it is difficult to provide an opt-out option to the participants.

\*With regard to the aforementioned issues, IRB confirmed that proper revisions were made and gave approval.
