<Review concerning human genome/gene analysis research protocol>

| | Department | Research project title | Review results | Summary |
|---|------------------|---|----------------|--|
| 1 | Clinical Studies | Revision of RP-6-15 “Epidemiological study of health effects in Fukushima emergency workers (Abbreviation: NEW Study)” (Okubo <i>et al.</i>) | Approved | 1) The following revisions should be made to the RP. ➤ With regard to the “Membership of committees and WGs,” it is necessary to standardize the affiliation names. ➤ (This second comment affects the Japanese version only.) 2) The following revision should be made to the information disclosure form (Form 1-5-2). ➤ The “Objective and method of using samples/information” should be revised in an easily understandable manner to the general public. |
