	Dept.	Title of RP	Review results	Proposed revisions
1	Molecular Biosciences	CR147 “Preliminary Study (RP-P) to determine the applicability of Wright-stained blood smear samples in GWAS” (Hayashi <i>et al.</i>)	Approved	<ul style="list-style-type: none"> ●The analysis period should be included in the study period. ●The term ”variant” should be used appropriately. ●The RP should detail safety measures for transfer of data to/from outside bodies and refer to the disposal of the key table. ●The RP should further detail the scope of the study subjects and the selection method. ●The draft entrustment contract should be submitted to the IRB before entering into the contract.

*IRB approved the RP after confirming that the aforementioned revisions had been made properly.
