[Review of research involving human subjects]

	Department	Title	Review result	Proceedings
1	Department of Epidemiology	CR158 “Quantifying the potential impact of PSA testing on radiation risk estimates for prostate cancer” (Mabuchi <i>et al.</i>)	Approved	<ul style="list-style-type: none"> • Change “radiation dose will be the closest mGy” to “using three significant digits” in the research plan and IRB application form. • The “research funding method” in the IRB application form will be checked to conform to the status quo. • Revise the expressions used in the objective of use and method of use sections in the information disclosure form to make them easier for the general public to understand. • The reason why opting out was impossible was recognized. Therefore, the information disclosure form will be used (Form 1-5-1).

*IRB approved the RP after confirming that the aforementioned revisions had been made properly.
