

**Radiation Effects Research Foundation**  
**The 13<sup>th</sup> meeting of the RERF Board of Councilors**

Summary Report

The 13th meeting of the RERF Board of Councilors (BOC) of the Radiation Effects Research Foundation (RERF) was held on June 21-22, 2023, at RERF Hiroshima Laboratory. The following is a summary of major agenda items and discussion results.

1. Report of activities and settlement of accounts

The status of activities in FY2022 was reported via the report of activities (including international collaborative activities and joint projects with foreign countries), settlement of accounts, audit report, and attached documents, and it was approved without objection.

2. Plans of activities, budget estimates, and other related matters

The plans of activities and the working budget in FY2023 were reported. The plans of activities include the research projects examining A-bomb survivors' health, research projects on the health of A-bomb survivors' children, research to elucidate individual radiation doses and the effects of A-bombs, projects to release research results and to collaborate with other scientific organizations, training programs for domestic and overseas specialists, and public information programs.

3. RERF strategic plan and relocation plan

The strategy to achieve the mission of RERF, together with the plan to relocate RERF to Hiroshima University Kasumi Campus, were explained and discussions on these matters ensued.

4. Scientific Advisory Committee's recommendations and RERF's response

The 50<sup>th</sup> meeting of the Scientific Advisory Committee was held on March 22-24, 2023. The committee's review this year focused on the Department of Clinical Studies and Research Resource Center (RRC). In addition, the trio study including the whole genome sequencing of A-bomb survivors and their children was discussed. The SAC made recommendations for the strategic plan and the policies including those for quality control and data/sample sharing as issues involved in research using biosamples, and RERF's responses to these recommendations were discussed.

5. Appointment of Councilors, Directors, and Scientific Advisors

New Directors, Scientific Advisors, and Local Advisors to replace those whose terms of appointment expired at the completion of the present BOC meeting, as well as two Councilors, were appointed. Their terms of appointment will expire at the conclusion of the regular BOC meetings in the fiscal years specified in the parentheses in the Attachment.
