

**LIST OF SEMINARS AND COLLOQUIA PRESENTED AT RERF (via Online)**  
**April 2022 – January 2023**

---

**SEMINARS**

**Kousuke Tanimoto**, Assistant Professor, Genome Laboratory, Medical Research Institute, Tokyo Medical and Dental University, Japan: “Genome research using bioinformatics (mainly about cancer genome research)” 7 July 2022

**Hanna Lindner**, PhD Candidate in Biostatistics, University of Pennsylvania, USA: “Statistical solutions in early biomarker development: Identification and analysis of non-monotone biomarkers in case-control studies” 31 August 2022

**Evagelia (Lia) C. Laiakis**, Associate Professor, Georgetown University Medical Center, Lombardi Comprehensive Cancer Center, Department of Oncology, USA: “Metabolomic and lipidomic approaches for radiation exposures: lessons learned and future applications” 27 September 2022

**RERF COLLOQUIA**

**The 131<sup>st</sup> RERF Colloquium**

15 April 2022

**Kengo Yoshida**, Chief of Immunology Laboratory, Department of Molecular Biosciences, “Massively expanding clonal hematopoiesis in mice long after irradiation”

**The 132<sup>nd</sup> RERF Colloquium**

13 May 2022

**Ritsu Sakata**, Assistant Department Chief, Department of Epidemiology, “Congenital malformations and perinatal deaths among the children of atomic bomb survivors: a reappraisal”

**The 133<sup>rd</sup> RERF Colloquium**

15 July 2022

**John Cologne**, Senior Scientist, Department of Statistics, “Analysis Plan for the F<sub>1</sub> Clinical Study (FOCS)”

**The 134<sup>th</sup> RERF Colloquium**

30 September 2022

**Satoru Ono**, Chief, Department of Information Technology, “Anonymization of sensitive information using Differential Privacy”

**The 135<sup>th</sup> RERF Colloquium**

28 October 2022

**Noriaki Yoshida**, Chief, Division of Clinical Laboratories, Department of Clinical Studies, Hiroshima, “Further analysis of incidence of multiple myeloma among atomic bomb survivors, 1950-1994”

**LIST OF SEMINARS AND COLLOQUIA PRESENTED AT RERF (via Online)**  
**April 2022 – January 2023**

---

**The 136<sup>th</sup> RERF Colloquium**

25 November 2022

**Tatsuaki Tsuruyama**, Assistant Department Chief, Department of Molecular Biosciences, “Molecular pathology of radiation-induced stress”

**The 137<sup>th</sup> RERF Colloquium**

16 December 2022

**Yuko Kadowaki**, Research Scientist, Department of Epidemiology, “The Reproducibility of Self-Reported Age at Menarche Among the Life Span Study of Atomic Bomb Survivors”

**The 138<sup>th</sup> RERF Colloquium**

20 January 2023

**Richard Sposto**, Chief, Department of Statistics, “A comparison of background cancer mortality patterns in Japan”
